DRIVER: YES

SOFT SKILLS

- Ability to take rapid actions in difficult contexts and work in groups
- Open to learn new skills (reverse engeneering and perseverance in self-learning)
- Physical resilience and adaptability to under pressure circumstances

LANGUAGES

- B2 in English (Obtained at University of Milan-Bicocca)

SAMUELE GONNELLA

JUNIOR FULL STACK DEVELOPER – ITS STUDENT | TRAINEE EMT – CROCE VERDE BAGGIO

ABOUT ME

I graduated from the Liceo Scientifico Statale "Elio Vittorini" and, following an educational experience at the Università degli Studi di Milano-Bicocca, I chose to pivot my training toward the Full Stack Developer program provided by ITS "Tech Talent Factory".

This transition is driven by my desire to combine the analytical rigor developed during my scientific studies with technical application and intensive practical experience.

My goal is to rapidly build a solid foundation of operational and problem-solving skills, which are essential for effectively tackling technological challenges and making meaningful contributions to corporate projects.

STUDIES

ITS "Tech Talent Factory" Via San Vigilio 5, Milan

Now attending the first year

Università degli Studi di Milano-Bicocca, Viale Sarca, 336, Milan

Attended the first year, no degree obtained

Liceo Scientifico Statale "Elio Vittorini", Via Mario Donati 5/7, 20146 Milan

Graduated on 7/7/2024

HARD SKILLS

- *Python Programming*
- *Java Programming*
- *PHP, HTML and CCS3*
- *Linux (Ubuntu, Debian, Arch, Fedora, Kali Linux)*
- *GitHub and HTML basics*
- *Fusion 360*
- *Raspberry Pi*
- *DaVinci Resolve*

PROJECTS I WORKED ON:

Croce Verde Baggio Web Portal: *I've worked on the new version of www.croceverdebaggio.it: a dynamic, responsive and custom PHP-Based website portal for the volunteering association "Croce Verde Baggio"*

Arduino Car CAN Bus Sniffer: *I have developed a project using Arduino (started in 2024 and still under development) to read and write on the automotive CAN-Bus protocol.*

Windows Cleaner*: I have built a simple, yet usable and reliable Windows Debloater based on Python and PowerShell scripts.*

"I hereby authorize the processing of my personal data contained in my curriculum vitae in accordance with Legislative Decree 196/2003, as amended by Legislative Decree 101/2018, and EU Regulation 2016/679 (GDPR)."

HOBBIES AND INTERESTS

Volunteering and Teamwork: *I am currently active as a "Trainee Emergency Medical Technician" and "Medical Transport Assistant" at P.A. Croce Verde Baggio ODV (Emergency Medical Services provider). This training develops stress management, quick decision-making in critical contexts, and a strong team spirit, in addition to practical first aid skills.*

Technical Projects (Embedded Systems): *The development of an open-source CAN Bus sniffer based on an Arduino Uno R3 and a Qt5 interface, alongside the deployment and maintenance of a Linux-based home lab demonstrates my interest in reverse engineering for embedded systems.*

Physical Disciplines and Self-Directed Learning*: I have achieved a Brown Belt in Judo (resilience and pressure management). My musical skills are entirely self-taught (I play the guitar), proving my aptitude for mastering complex systems and my perseverance in independent learning.*

"I hereby authorize the processing of my personal data contained in my curriculum vitae in accordance with Legislative Decree 196/2003, as amended by Legislative Decree 101/2018, and EU Regulation 2016/679 (GDPR)."
